New Rules from the State of Colorado for summer 2018

Dear Camp Parents:

The State of Colorado has issued new rules effective for this summer which we need to inform you of.

1. **Camper physicals are due 10 days prior to the child's arrival at camp.** If you have already scheduled yours for a time closer to the start of camp, it will be ok for this summer. In the future, please be aware that camp physicals need to be scheduled and to us 10 days prior to day 1.
2. **Medication prescribed for campers must be from a licensed pharmacy;** labeled with the name, address, and phone number of the pharmacy; name of the camper; name and strength of the medicine; directions for use; date filled; prescription number; and the name of the practitioner prescribing the medicine. **Meds MUST be in original containers and not in individual containers that can be purchased.**
3. Topical preparations such as **Vaseline and bug sprays may be administered to children with written parents' authorization.** These may not be applied to open wounds or broken skin unless there is a written order by the prescribing practitioner. **NO AEROSOL BUG SPRAY** will be allowed in the cabin. When supplied for your camper, the bug spray must be labeled with the camper's first and last name. We will keep it in the office and apply with your permission. Non-aerosol bug products may be kept in the cabin.
4. Parents must give **written authorization** with the instructions for **applying sunscreen** or use of another form of parent approved sun protection to their children's exposed skin prior to going outside. A doctor's permission is not needed to use sunscreen at camp. **NO AEROSOL sunscreen** may be kept in the cabin. When supplied for your camper, the sunscreen must be labeled with the camper's first and last name. We will keep Banana Boat KIDS 50+ and SPORT Broad Spectrum sunscreen spray (spf50) in our office and will apply with your permission.
5. **Home remedies, including homeopathic medications,** must not be administered at camp without written parental consent, authorization of the prescribing practitioner and delegation as required. This will include vitamins so you will need a note from your doctor with any of those or any other non-prescription remedies.

Thanks Parents!!!!
